

Steps to Convert Lights

1. Mount the lights with enclosed clips. Mount one light on each side of the cabinet. It may be necessary to cut out a portion of the 2"x4" board.

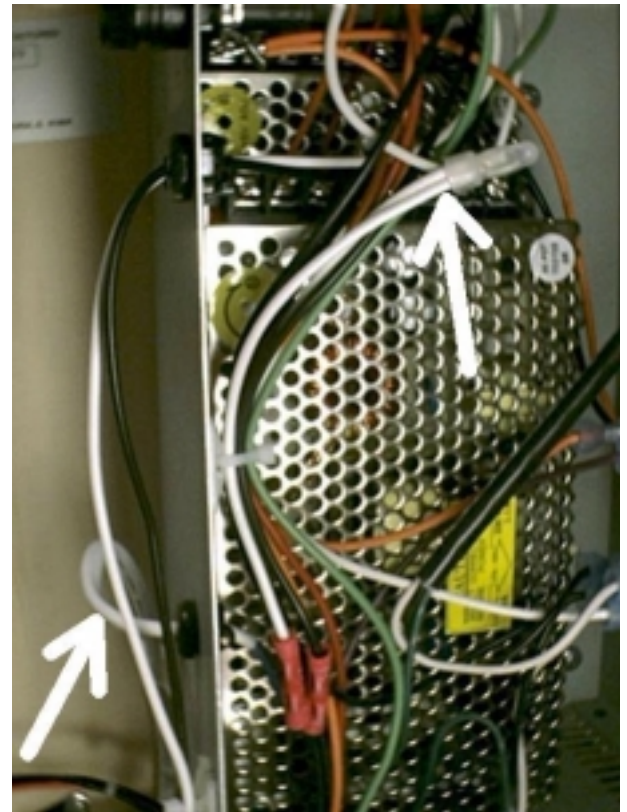

2. Run the light cord into the power supply box.

For 220 volt

Connect the two light cord ends to the switched lead of the incoming power.

For 110 volt

Connect one wire to ground and one wire to the switched lead of the incoming power.
